Dhairya Desai	dpd140130

• Technique/Algorithm you plan to implement

> Long Short Term Memory Model (LSTM)

• Dataset details, such as number of features, instances, data distribution

> Number of Features:10
> Instances:1000
> Data Distribution: 10 genres of music are equally distributed with 100 audio files of each genre.

• Coding language / technique to be used

> Coding Language : Python
> Technique: Object Oriented Programming
